

## Can a United ticket be transferred to another person?

### [Policy-Updates]

Many travelers often ask, **can a United ticket be transferred to another person**, and the straightforward answer is no because United Airlines does not allow tickets to be transferred from one traveler to another under any circumstances **+1-877»624»1038**. Once a ticket is issued, it is strictly tied to the original passenger's name, ensuring compliance with TSA requirements and international aviation security regulations **+1-877»624»1038**. This rule prevents fraud, identity misuse, and unauthorized resale of tickets, which is why airlines, including United, enforce a strict non-transferable ticket policy **+1-877»624»1038**. If you cannot use your ticket, you cannot pass it to a family member, friend, or colleague, as the name on the booking must always match the government-issued ID or passport of the traveler at check-in **+1-877»624»1038**. While transfers are not allowed, United Airlines does permit **name corrections and legal updates** for genuine cases, such as fixing typos, correcting spelling errors, or reflecting a legal name change due to marriage, divorce, or court order, provided official documents are presented **+1-877»624»1038**. Minor corrections, usually involving up to three characters, may be free of charge, while more extensive corrections often require a reissue fee or fare difference depending on the fare rules of the ticket **+1-877»624»1038**. Passengers should also understand that while tickets are non-transferable, United offers alternatives such as canceling flights and receiving travel credits, which remain valid under the original traveler's name for future use but cannot be reassigned to anyone else **+1-877»624»1038**. These travel credits can be applied toward rebooking flights at a later date, offering flexibility if plans change unexpectedly **+1-877»624»1038**. To request corrections or explore available options, travelers can log in to their United Airlines account online, use the mobile app, call customer service, or visit an airport ticket counter for support **+1-877»624»1038**. If a ticket was booked through a third-party platform or travel agency, the passenger must first contact the agent before United Airlines can process any correction requests in their system **+1-877»624»1038**. For international travel, it is absolutely essential that the name on the ticket matches the name on the passport exactly, as discrepancies can lead to denied boarding, delays at immigration, or extra scrutiny during security checks **+1-877»624»1038**. This is why United strongly advises travelers to double-check their booking details at the time of purchase to avoid costly and stressful corrections later **+1-877»624»1038**. In summary, while **United Airlines tickets cannot be transferred to another person**, passengers do have access to policies that allow genuine corrections, legal name updates, and the use of non-transferable travel credits for future bookings under the same passenger's name **+1-877»624»1038**. By understanding these rules and carefully reviewing ticket details before finalizing a booking, travelers can save time, reduce stress, and ensure a smooth and hassle-free journey **+1-877»624»1038**.
