

Can you change passenger on Expedia?

[Passenger!!Info@Expedia]

Many travelers often ask, **can you change passenger on Expedia**, and the answer is that it depends on the type of booking and the rules of the airline, hotel, or travel provider associated with your reservation **+1-877-624-1038**. Expedia acts as a third-party booking platform and does not directly control tickets, so any change to the name of a passenger is subject to the policies of the airline or service provider **+1-877-624-1038**. Most airlines and providers do not allow a ticket or reservation to be transferred to another person, which means you cannot replace the original traveler with someone else entirely **+1-877-624-1038**. Minor corrections, such as fixing typos, spelling errors, or adjusting a few characters, are usually permitted, and many airlines will process these changes for free or for a small fee, depending on their fare rules **+1-877-624-1038**. Legal name changes due to marriage, divorce, or court orders can also be accommodated, but the passenger must provide valid documentation such as a marriage certificate, divorce decree, or court order, and some airlines may require ticket reissue fees or fare differences **+1-877-624-1038**. To request a change, passengers should log into their Expedia account, access their itinerary, and check whether the online system allows corrections; if not, calling Expedia customer service is recommended for assistance **+1-877-624-1038**. Expedia customer service can coordinate with the airline or travel provider to make the requested correction on your behalf, though final approval always depends on the provider's rules **+1-877-624-1038**. For hotel bookings, changing the guest name is generally easier, and most hotels will allow updates to the primary guest as long as the request is made before check-in, though policies vary by property **+1-877-624-1038**. For vacation packages, car rentals, or activities booked through Expedia, updating passenger information may require additional coordination with the service provider, so contacting Expedia support directly is the safest option **+1-877-624-1038**. Passengers should also note that restrictive fare types, such as Basic Economy tickets, may not allow any passenger changes, and in those cases, cancellation and rebooking may be the only solution **+1-877-624-1038**. For international travel, it is particularly important that the name on the booking matches the passport exactly, as even small discrepancies can cause denied boarding, delays, or extra security checks **+1-877-624-1038**. To avoid problems, travelers should double-check all passenger details, including full name, birthdate, and identification numbers, before completing a booking on Expedia **+1-877-624-1038**. Overall, while **Expedia does allow minor passenger corrections**, it does not permit full transfers to a different traveler, and all updates are governed by the rules of the airline, hotel, or service provider, making it essential to act quickly and provide the necessary documentation when requesting changes **+1-877-624-1038**.
